

## PRODUCT INFORMATION SHEET

### PROTON WASH

#### PRODUCT DESCRIPTION

Proton Wash is a specially formulated industrial strength detergent designed for the removal of non-water soluble stains such as heavy grease and oil. This product provides an alkaline break in the wash to seek out grease and other stains not normally soluble in conventional detergents. Proton Wash is an all-round good detergent, and will not have any adverse effects on waste systems. Proton wash is highly effective in hot wash cycles, and is great for overalls, work uniforms, tea towels and other dirty laundry.

#### DIRECTIONS FOR USE

**Soaking recommended Dilution: 50mls per kg.**

This product will dissolve slightly on dilution. Make up solution in hot water and allow 40 minutes soak time. After soaking rinse.

**Machine use recommended dilution: 25mls per kg.** Use on HOT wash cycle to ensure removal of contaminants.

#### FIRST AID & SAFETY

Considered a hazardous product as alkaline and irritating to skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.

Refer to Safety Data Sheet for more information.
