

PRODUCT INFORMATION SHEET

FORMULA SC

PRODUCT DESCRIPTION

Formula SC has been especially formulated for the removal of heavy fat, grease and oil on such surfaces as metal, concrete, plastic, rubber, tiles and aluminium. Formula SC is a special blend of water soluble solvents and surfactants and is ideal for the removal of body fats from showers and grease and oils from food preparation areas. This product is a great grease remover on high use kitchen floors and is also suitable for cleaning of grime and oil from machinery. Its low foaming characteristics make it suitable for use through hand pumps and high pressure washing equipment.

DIRECTIONS FOR USE

Recommended Dilution: 25mls per litre of water, up to 50mls per litre of water

For light machines and light cleaning dilute 25mls per 1 litre of water.

For heavy grease and grime, test a lower dilution on the surface.

NB. Only use 25mls per litre of water dilution on glass and aluminium as Formula SC may etch these surfaces.

FIRST AID & SAFETY

Class 8 Dangerous Goods

Risk: Corrosive

Avoid contact with skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flush with water for a minimum of 15 minutes. Call a Doctor.
