

PRODUCT INFORMATION SHEET

HYDROCHLORIC ACID 32%

PRODUCT DESCRIPTION

Hydrochloric (muriac) acid is a 32% solution of Hydrochloric Acid. Hydrochloric acid can be used to clean bricks and masonry, concrete paths and rust from steel. Hydrochloric acid is commonly used to lower the pH in swimming pools and for pH balancing water in water treatment plants. Hydrochloric Acid may also be used for a wide variety of Industrial applications.

DIRECTIONS FOR USE

Bricks and masonry dilute 1 part acid to 2 parts water.

Concrete paths dilute 1 part acid to 4 parts water

pH adjust down to a pH level of between 6.9 to 8.0 for pools and general water treatment to allow chlorine and flocculants to perform effectively.

FIRST AID & SAFETY

Class 8 Dangerous Goods

Risk: Corrosive

This product is acidic. The use of gloves and eye protection is required. Do not mix with other chemicals.

If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water or milk. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.
