

# PRODUCT INFORMATION SHEET

## SODIUM HYPOCHLORITE

### PRODUCT DESCRIPTION

Sodium Hypochlorite is a highly effective broad spectrum cleaner and sanitiser. This product helps control germs (both bacteria and virus) on contact and is effective against a wide range of micro-organisms. Only a short contact time of a few minutes is necessary for effective sanitation. Sodium Hypochlorite is also alkaline in nature and is effective in removing light fats and blood in food preparation and manufacturing facilities. Sodium Hypochlorite is also commonly used in water treatment applications as it is an effective product for removing algae and unwanted bacteria in water.

### DIRECTIONS FOR USE

#### Recommended Dose Rates:

Mould Removal	30ml per litre (3600ppm)	Add 300ml to bucket and wipe over surfaces
Drains and Floors	10ml per litre of cold water (1200ppm)	Hose of dirt allow thorough saturation/rinse
Water Tanks	12ml per 1000 Litres of water (1.5ppm)	Ensure product is well mixed through
Machines	35ml per 10 litres of cold water (400ppm)	Circulate cold for 10 mins, rinse fresh water.
Pools	1 litre per 40000L to give (1ppm)	Dilute in bucket and apply evenly to pool.

### FIRST AID & SAFETY

#### Class 8 Risk: Corrosive

Sodium Hypochlorite is a corrosive liquid. Always wear PVC gloves and safety glasses when handling. The product will irritate the eyes, nose and throat, use in a well ventilated area. In the case of a spillage flush with large quantities of water. **DO NOT MIX WITH OTHER CHEMICALS.** If swallowed do NOT induce vomiting, give water or milk. If skin contact occurs wash affected area immediately with water and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.
