

PRODUCT INFORMATION SHEET

SANICHEM 2

PRODUCT DESCRIPTION

Highly concentrated perfumed toilet sanitiser for use in portable toilets including caravans and camping toilets. Sanichem 2 contains Formaldehyde, an active ingredient which suspends the growth of bacteria and reduces the formation of odours. Sanichem 2 is also suitable for use in bottom holding tanks in caravan toilet systems, for top flush tanks in caravans combine with Paroma zone disinfectant to ensure matching perfumes.

DIRECTIONS FOR USE

Recommended Dilution: 20ml per 5 litres of holding tank capacity per week

For reticulating toilet add 20ml to initial charge tank and top up as necessary. Additional product may be required if temperature variations or excessive usage occurs. Combine with Paroma Zone Disinfectant for flush applications.

Sanichem 2 should be professionally treated on removal and discharged into dump points in caravan parks or treated by waste professionals for portable toilets. Do not dump into waterways as product needs to be neutralised prior to discharge

FIRST AID & SAFETY

Considered a hazardous product avoid contact with skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water and contact a doctor. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor. **Refer to Safety Data Sheet for more information.**
